

Friday 3rd April 2020

Dear parents/carers,

As we reach what would normally have been the final day of the Spring Term, I write to you with a message of thanks, assurance and hope – and to take this opportunity to keep in touch with you all.

Firstly, I would like to thank you for the efforts that you have put into working with your children; encouraging and supporting them through the online lessons that their class teachers have been posting onto the school website.

I realise that these are testing times. But I have been encouraged by the many messages that we have received from you and your children, showing how you have been rising to the challenge – and keeping alive our school motto, “Unlock Potential – Celebrate Success”.

Secondly, I would like to assure you that your children’s teachers will continue to help you, to guide your children’s learning over the coming weeks.

For what would have been the two-week Easter Holiday, there are lots of fun ideas and suggestions in your children’s class pages. These are there as optional activities to give you and your children a break from daily lessons, and the feeling that the normal rhythm of term time and holiday time remains. Your children’s teachers will ensure that the regular pattern of lessons is posted onto the class pages for the beginning of the Summer Term.

Finally, I would like to wish all of you my best wishes to keep safe and well, as we confidently approach this situation together, with the sense of hope and certainty these difficult times will eventually pass.

Yours sincerely,

Mr. J Fish

Head Teacher
