

## Computing Systems and Networks

Year 1 & 2 Cycle A	Year 1 & 2 Cycle B	Year 3 & 4 Cycle A	Year 3 & 4 Cycle B	Year 5 & 6 Cycle A	Year 5 & 6 Cycle B
	<p><b>Unit: Technology around us</b></p> <p><b>LO: to identify technology</b></p> <ul style="list-style-type: none"> <li>I can explain technology as something that helps us</li> <li>I can locate examples of technology in the classroom</li> <li>I can explain how these technology examples help us</li> </ul> <p><b>LO: to identify a computer and its main parts</b></p> <ul style="list-style-type: none"> <li>I can name the main parts of a computer</li> <li>I can switch on and log into a computer</li> <li>I can use a mouse to click and drag</li> </ul> <p><b>LO: To use a mouse in different ways</b></p> <ul style="list-style-type: none"> <li>I can use a mouse to open a program</li> <li>I can click and drag to make objects on a screen</li> <li>I can use a mouse to create a picture</li> </ul> <p><b>LO: to use a keyboard to type on a computer</b></p> <ul style="list-style-type: none"> <li>I can say what a keyboard is for</li> <li>I can type my name on a computer</li> <li>I can save my work to a file</li> </ul> <p><b>LO: To use the keyboard to edit text</b></p> <ul style="list-style-type: none"> <li>I can open my work from a file</li> <li>I can use the arrow keys to move the cursor</li> <li>I can delete letters</li> </ul> <p><b>LO: To create rules for using technology responsibly</b></p> <ul style="list-style-type: none"> <li>I can identify rules to keep us safe and healthy when we are using technology in</li> </ul>		<p><b>Unit: Connecting Computers</b></p> <p><b>LO: to explain how digital devices function</b></p> <ul style="list-style-type: none"> <li>I can explain that digital devices accept inputs</li> <li>I can explain that digital devices produce outputs</li> <li>I can follow a process</li> </ul> <p><b>LO: to identify input and output devices</b></p> <ul style="list-style-type: none"> <li>I can classify input and output devices</li> <li>I can design a digital device</li> <li>I can describe a simple process</li> </ul> <p><b>LO: to recognise how digital devices can change the way we work</b></p> <ul style="list-style-type: none"> <li>I can explain how I use digital devices for different activities</li> <li>I can recognise similarities between using digital devices and non-digital tools</li> <li>I can suggest differences between using digital devices and non-digital tools</li> </ul> <p><b>LO: to explain how a computer network can be used to share information</b></p> <ul style="list-style-type: none"> <li>I can recognise different connections</li> <li>I can explain how messages are passed through multiple connections</li> <li>I can discuss why we need a network switch</li> </ul> <p><b>LO: to explore how digital devices can be connected</b></p> <ul style="list-style-type: none"> <li>I can recognise that a computer network is made up of a number of devices</li> <li>I can demonstrate how information can be passed between devices</li> <li>I can explain the role of a switch, server, and wireless access point in a network</li> </ul> <p><b>LO: to recognise the physical components of a network</b></p> <ul style="list-style-type: none"> <li>I can identify how devices in a network are connected together</li> <li>I can identify networked devices around me</li> <li>I can identify the benefits of computer networks</li> </ul> <p><b>Unit: The Internet</b></p> <p><b>LO: to describe how networks physically connect to other networks</b></p> <ul style="list-style-type: none"> <li>I can describe the internet as a network of networks</li> <li>I can demonstrate how information is shared across the internet</li> <li>I can discuss why a network needs protecting</li> </ul> <p><b>LO: to recognise how networked devices make up the internet</b></p>		<p><b>Unit: Systems and Searching</b></p> <p><b>LO: to explain that computers can be connected together to form systems</b></p> <ul style="list-style-type: none"> <li>I can explain that systems are built using a number of parts</li> <li>I can describe that a computer system features inputs, processes, and outputs</li> <li>I can explain that computer systems communicate with other devices</li> </ul> <p><b>LO: to recognise the role of computer systems in our lives</b></p> <ul style="list-style-type: none"> <li>I can identify tasks that are managed by computer systems</li> <li>I can identify the human elements of a computer system</li> <li>I can explain the benefits of a given computer system</li> </ul> <p><b>LO: to experiment with search engines</b></p> <ul style="list-style-type: none"> <li>I can make use of a web search to find specific information</li> <li>I can refine my web search</li> <li>I can compare results from different search engines</li> </ul> <p><b>LO: to describe how search engines select results</b></p> <ul style="list-style-type: none"> <li>I can explain why we need tools to find things online</li> <li>I can recognise the role of web crawlers in creating an index</li> <li>I can relate a search term to the search engine's index</li> </ul> <p><b>LO: to explain how search results are ranked</b></p> <ul style="list-style-type: none"> <li>I can order a list by rank</li> <li>I can explain that a search engine follows rules to rank results</li> <li>I can give examples of criteria used by search engines to rank results</li> </ul> <p><b>LO: to recognise why the order of results is important, and to whom</b></p> <ul style="list-style-type: none"> <li>I can describe some of the ways that search results can be influenced</li> <li>I can recognise some of the limitations of search engines</li> <li>I can explain how search engines make money</li> </ul> <p><b>Unit: Communication and Collaboration</b></p> <p><b>LO: to explain the importance of internet addresses</b></p> <ul style="list-style-type: none"> <li>I can recognise that data is transferred using agreed methods</li> <li>I can explain that internet devices have addresses</li> <li>I can describe how computers use addresses to access websites</li> </ul> <p><b>LO: to recognise how data is transferred across the internet</b></p> <ul style="list-style-type: none"> <li>I can identify and explain the main parts of a data packet</li> </ul>

and beyond the home

- I can give examples of some of these rules
- I can discuss how we benefit from these rules

**Unit: IT Around Us**

**LO: to recognise the uses and features of information technology**

- I can identify examples of computers
- I can describe some uses of computers
- I can identify that a computer is a part of IT

**LO: to identify the uses of information technology in the school**

- I can identify examples of IT
- I can sort school IT by what it's used for
- I can identify that some IT can be used in more than one way

**LO: to identify information technology beyond school**

- I can find examples of information technology
- I can sort IT by where it is found
- I can talk about uses of information technology

**LO: to explain how information technology helps us**

- I can recognise common types of technology
- I can demonstrate how IT devices work together
- I can say why we use IT

**LO: to explain how to use information technology safely**

- I can list different uses of information technology

- I can describe networked devices and how they connect
- I can explain that the internet is used to provide many services
- I can recognise that the World Wide Web contains websites and web pages

**LO: to outline how websites can be shared via the World Wide Web (WWW)**

- I can describe where websites are stored when uploaded to the WWW
- I can describe how to access websites on the WWW
- I can explain the types of media that can be shared on the WWW

**LO: to describe how content can be added and accessed on the World Wide Web (WWW)**

- I can explain what media can be found on websites
- I can recognise that I can add content to the WWW
- I can explain that internet services can be used to create content online

**LO: to recognise how the content of the WWW is created by people**

- I can explain that websites and their content are created by people
- I can suggest who owns the content on websites
- I can explain that there are rules to protect content

**LO: to evaluate the consequences of unreliable content**

- I can explain that not everything on the World Wide Web is true
- I can explain why some information I find online may not be honest, accurate, or legal

I can explain why I need to think carefully before I share or reshare content

- I can explain that data is transferred over networks in packets
- I can explain that all data transferred over the internet is in packets

**LO: to explain how sharing information online can help people to work together**

- I can recognise how to access shared files stored online
- I can send information over the internet in different ways
- I can explain that the internet allows different media to be shared

**LO: to evaluate different ways of working together online**

- I can identify different ways of working together online
- I can recognise that working together on the internet can be public or private
- I can explain how the internet enables effective collaboration

**LO: to recognise how we communicate using technology**

- I can explain the different ways in which people communicate
- I can identify that there are a variety of ways to communicate over the internet
- I can choose methods of communication to suit particular purposes

**LO: to evaluate different methods of online communication**

- I can compare different methods of communicating on the internet
- I can decide when I should and should not share information online
- I can explain that communication on the internet may not be private

		<ul style="list-style-type: none"> <li>I can talk about different rules for using IT</li> <li>I can say how rules can help keep me safe</li> </ul> <p><b>LO: to recognise that choices are made when using information technology</b></p> <ul style="list-style-type: none"> <li>I can identify the choices that I make when using IT</li> <li>I can use IT for different types of activities</li> <li>I can explain the need to use IT in different ways</li> </ul>				
<p><b>Creating Media</b></p> 	<p><b>Unit: Digital Writing</b></p> <p><b>LO: to use a computer to write</b></p> <ul style="list-style-type: none"> <li>I can open a word processor</li> <li>I can recognise keys on a keyboard</li> <li>I can identify and find keys on a keyboard</li> </ul> <p><b>LO: to add and remove text on a computer</b></p> <ul style="list-style-type: none"> <li>I can enter text into a computer</li> <li>I can use letter, number, and space keys</li> <li>I can use backspace to remove text</li> </ul> <p><b>LO: to identify that the look of text can be changed on a computer</b></p> <ul style="list-style-type: none"> <li>I can type capital letters</li> <li>I can explain what the keys that I have learnt about already do</li> <li>I can identify the toolbar and use bold, italic, and underline</li> </ul> <p><b>LO: to make careful choices when changing text</b></p> <ul style="list-style-type: none"> <li>I can select a word by double-clicking</li> <li>I can select all of the text by clicking and dragging</li> <li>I can change the font</li> </ul> <p><b>LO: to explain why I used the tools that I chose</b></p>	<p><b>Unit: Digital Painting</b></p> <p><b>LO: to describe what different freehand tools do</b></p> <ul style="list-style-type: none"> <li>I can make marks on a screen and explain which tools I used</li> <li>I can draw lines on a screen and explain which tools I used</li> <li>I can use the paint tools to draw a picture</li> </ul> <p><b>LO: to use the shape tool and the line tools</b></p> <ul style="list-style-type: none"> <li>I can make marks with the square and line tools</li> <li>I can use the shape and line tools effectively</li> <li>I can use the shape and line tools to recreate the work of an artist</li> </ul> <p><b>LO: to make careful choices when painting a digital picture</b></p> <ul style="list-style-type: none"> <li>I can choose appropriate shapes</li> <li>I can make appropriate colour choices</li> <li>I can create a picture in the style of an artist</li> </ul> <p><b>LO: to explain why I chose the tools I used</b></p> <ul style="list-style-type: none"> <li>I know that different paint tools do different jobs</li> </ul>	<p><b>Unit: Desktop Publishing</b></p> <p><b>LO: to recognise how text and images convey information</b></p> <ul style="list-style-type: none"> <li>I can explain the difference between text and images</li> <li>I can recognise that text and images can communicate messages clearly</li> <li>I can identify the advantages and disadvantages of using text and images</li> </ul> <p><b>LO: to recognise that text and layout can be edited</b></p> <ul style="list-style-type: none"> <li>I can change font style, size, and colours for a given purpose</li> <li>I can edit text</li> <li>I can explain that text can be changed to communicate more clearly</li> </ul> <p><b>LO: to choose appropriate page settings</b></p> <ul style="list-style-type: none"> <li>I can define the term 'page orientation'</li> <li>I can recognise placeholders and say why they are important</li> <li>I can create a template for a particular purpose</li> </ul> <p><b>LO: to add content to a desktop publishing publication</b></p> <ul style="list-style-type: none"> <li>I can choose the best locations for my content</li> <li>I can paste text and images to create a magazine cover</li> <li>I can make changes to content after I've added it</li> </ul> <p><b>LO: to consider how different layouts can suit different purposes</b></p> <ul style="list-style-type: none"> <li>I can identify different layouts</li> </ul>	<p><b>Unit: Stop Frame Animations</b></p> <p><b>LO: to explain that animation is a sequence of drawings or photographs</b></p> <ul style="list-style-type: none"> <li>I can draw a sequence of pictures</li> <li>I can create an effective flip book—style animation</li> <li>I can explain how an animation/flip book works</li> </ul> <p><b>LO: to relate animated movement with a sequence of images</b></p> <ul style="list-style-type: none"> <li>I can predict what an animation will look like</li> <li>I can explain why little changes are needed for each frame</li> <li>I can create an effective stop-frame animation</li> </ul> <p><b>LO: to plan an animation</b></p> <ul style="list-style-type: none"> <li>I can break down a story into settings, characters and events</li> <li>I can describe an animation that is achievable on screen</li> <li>I can create a storyboard</li> </ul> <p><b>LO: to identify the need to work consistently and carefully</b></p> <ul style="list-style-type: none"> <li>I can use onion skinning to help me make small changes between frames</li> <li>I can review a sequence of frames to check my work</li> <li>I can evaluate the quality of my animation</li> </ul> <p><b>LO: to review and improve an animation</b></p> <ul style="list-style-type: none"> <li>I can explain ways to make my animation better</li> <li>I can evaluate another learner's animation</li> <li>I can improve my animation based on feedback</li> </ul> <p><b>LO: to evaluate the impact of adding other media to an animation</b></p>	<p><b>Unit: Vector Graphics</b></p> <p><b>LO: to identify that drawing tools can be used to produce different outcomes</b></p> <ul style="list-style-type: none"> <li>I can recognise that vector drawings are made using shapes</li> <li>I can experiment with the shape and line tools</li> <li>I can discuss how vector drawings are different from paper-based drawings</li> </ul> <p><b>LO: to create a vector drawing by combining shapes</b></p> <ul style="list-style-type: none"> <li>I can identify the shapes used to make a vector drawing</li> <li>I can explain that each element added to a vector drawing is an object</li> <li>I can move, resize, and rotate objects I have duplicated</li> </ul> <p><b>LO: to use tools to achieve a desired effect</b></p> <ul style="list-style-type: none"> <li>I can use the zoom tool to help me add detail to my drawings</li> <li>I can explain how alignment grids and resize handles can be used to improve consistency</li> <li>I can modify objects to create a new image</li> </ul> <p><b>LO: to recognise that vector drawings consist of layers</b></p> <ul style="list-style-type: none"> <li>I can identify that each added object creates a new layer in the drawing</li> <li>I can change the order of layers in a vector drawing</li> <li>I can use layering to create an image</li> </ul> <p><b>LO: to group objects to make them easier to work with</b></p> <ul style="list-style-type: none"> <li>I can copy part of a drawing by duplicating several objects</li> <li>I can recognise when I need to group and ungroup objects</li> <li>I can reuse a group of objects to further develop my vector drawing</li> </ul>	<p><b>Unit: Video Production</b></p> <p><b>LO: to explain what makes a video effective</b></p> <ul style="list-style-type: none"> <li>I can explain that video is a visual media format</li> <li>I can identify features of videos</li> <li>I can compare features in different videos</li> </ul> <p><b>LO: to identify digital devices that can record video</b></p> <ul style="list-style-type: none"> <li>I can identify and find features on a digital video recording device</li> <li>I can experiment with different camera angles</li> <li>I can make use of a microphone</li> </ul> <p><b>LO: to capture video using a range of techniques</b></p> <ul style="list-style-type: none"> <li>I can suggest filming techniques for a given purpose</li> <li>I can capture video using a range of filming techniques</li> <li>I can review how effective my video is</li> </ul> <p><b>LO: to create a storyboard</b></p> <ul style="list-style-type: none"> <li>I can outline the scenes of my video</li> <li>I can decide which filming techniques I will use</li> <li>I can create and save video content</li> </ul> <p><b>LO: to identify that video can be improved through reshooting and editing</b></p> <ul style="list-style-type: none"> <li>I can store, retrieve, and export my recording to a computer</li> <li>I can explain how to improve a video by reshooting and editing</li> <li>I can select the correct tools to make edits to my video</li> </ul> <p><b>LO: to consider the impact of the choices made when making and sharing a video</b></p> <ul style="list-style-type: none"> <li>I can make edits to my video and improve the final outcome</li> <li>I can recognise that my choices when making a video will impact on the quality of the final outcome</li> <li>I can evaluate my video and share my opinions</li> </ul> <p><b>Unit: Web Page Creation</b></p>

- I can say what tool I used to change the text
- I can decide if my changes have improved my writing
- I can use 'undo' to remove changes

**LO: to compare typing on a computer to writing on paper**

- I can make changes to text on a computer
- I can explain the differences between typing and writing
- I can say why I prefer typing or writing

**Unit: Digital Music**

**LO: to say how music can make us feel**

- I can identify simple differences in pieces of music
- I can describe music using adjectives
- I can say what I do and don't like about a piece of music

**LO: to identify that there are patterns in music**

- I can create a rhythm pattern
- I can play an instrument following a rhythm pattern
- I can explain that music is created and played by humans

**LO: to experiment with sound using a computer**

- I can connect images with sounds
- I can use a computer to experiment with pitch
- I can relate an idea to a piece of music

**LO: to use a computer to create a musical pattern**

- I can identify that music is a sequence of notes
- I can explain how my music can be played in different ways
- I can refine my musical pattern on a computer

**LO: to create music for a purpose**

- I can choose appropriate paint tools and colours to recreate the work of an artist
- I can say which tools were helpful and why

**LO: to use a computer on my own to paint a picture**

- I can make dots of colour on the page
- I can change the colour and brush sizes
- I can use dots of colour to create a picture in the style of an artist on my own

**LO: to compare painting a picture on a computer and on paper**

- I can explain that pictures can be made in lots of different ways
- I can spot the differences between painting on a computer and on paper
- I can say whether I prefer painting using a computer or using paper

**Unit: Digital Photography**

**LO: to use a digital device to take a photograph**

- I can recognise what devices can be used to take photographs
- I can talk about how to take a photograph
- I can explain what I did to capture a digital photo

**LO: to make choices when taking a photograph**

- I can explain the process of taking a good photograph
- I can take photos in both landscape and portrait format
- I can explain why a photo looks better in portrait or landscape format

- I can match a layout to a purpose
- I can choose a suitable layout for a given purpose

**LO: to consider the benefits of desktop publishing**

- I can identify the uses of desktop publishing in the real world
- I can say why desktop publishing might be helpful
- I can compare work made on desktop publishing to work created by hand

- I can add other media to my animation
- I can explain why I added other media to my animation
- I can evaluate my final film

**Unit: Photo Editing**

**LO: to explain that the composition of digital images can be changed**

- I can improve an image by rotating it
- I can explain why I might crop an image
- I can use photo editing software to crop an image

**LO: to explain that colours can be changed in digital images**

- I can explain that different colour effects make you think and feel different things
- I can experiment with different colour effects
- I can explain why I chose certain colour effects

**LO: to explain how cloning can be used in photo editing**

- I can add to the composition of an image by cloning
- I can identify how a photo edit can be improved
- I can remove parts of an image using cloning

**LO: to explain that images can be combined**

- I can experiment with tools to select and copy part of an image
- I can use a range of tools to copy between images
- I can explain why photos might be edited

**LO: to combine images for a purpose**

- I can describe the image I want to create
- I can choose suitable images for my project
- I can create a project that is a combination of other images

**LO: to evaluate how changes can improve an image**

- I can review images against a given criteria
- I can use feedback to guide making changes
- I can combine text and my image to complete the project

**Unit: Audio Production**

**LO: to identify that sound can be recorded**

- I can identify the input and output devices used to record and play sound
- I can use a computer to record audio
- I can explain that the person who records the sound can say who is allowed to use it

**LO: to apply what I have learned about vector drawings**

- I can create a vector drawing for a specific purpose
- I can reflect on the skills I have used and why I have used them
- I can compare vector drawings to freehand paint drawings

**Unit: 3D Modelling**

**LO: to recognise that you can work in three dimensions on a computer**

- I can add 3D shapes to a project
- I can view 3D shapes from different perspectives
- I can move 3D shapes relative to one another

**LO: to identify that digital 3D objects can be modified**

- I can resize an object in three dimensions
- I can lift/lower 3D objects
- I can recolour a 3D object

**LO: to recognise that objects can be combined in a 3D model**

- I can rotate objects in three dimensions
- I can duplicate 3D objects
- I can group 3D objects

**LO: to create a 3D model for a given purpose**

- I can accurately size 3D objects
- I can show that placeholders can create holes in 3D objects
- I can combine a number of 3D objects

**LO: to plan my own 3D model**

- I can analyse a 3D model
- I can choose objects to use in a 3D model
- I can combine objects in a design

**LO: to create my own digital 3D model**

- I can construct a 3D model based on a design
- I can explain how my 3D model could be improved
- I can modify my 3D model to improve it

**LO: to review an existing website and consider its structure**

- I can explore a website
- I can discuss the different types of media used on websites
- I know that websites are written in HTML

**LO: to plan the features of a web page**

- I can recognise the common features of a web page
- I can suggest media to include on my page
- I can draw a web page layout that suits my purpose

**LO: to consider the ownership and use of images (copyright)**

- I can say why I should use copyright-free images
- I can find copyright-free images
- I can describe what is meant by the term 'fair use'

**LO: to recognise the need to preview pages**

- I can add content to my own web page
- I can preview what my web page looks like
- I can evaluate what my web page looks like on different devices and suggest/make edits

**LO: to outline the need for a navigation path**

- I can explain what a navigation path is
- I can describe why navigation paths are useful
- I can make multiple web pages and link them using hyperlinks

**LO: to recognise the implications of linking to content owned by other people**

- I can explain the implication of linking to content owned by others
- I can create hyperlinks to link to other people's work
- I can evaluate the user experience of a website

<ul style="list-style-type: none"> <li>I can create a rhythm which represents an animal I've chosen</li> <li>I can create my animal's rhythm on a computer</li> <li>I can add a sequence of notes to my rhythm</li> </ul> <p><b>LO: to review and refine our computer work</b></p> <ul style="list-style-type: none"> <li>I can review my work</li> <li>I can explain how I changed my work</li> <li>I can listen to music and describe how it makes me feel</li> </ul>	<p><b>LO: to describe what makes a good photograph</b></p> <ul style="list-style-type: none"> <li>I can identify what is wrong with a photograph</li> <li>I can discuss how to take a good photograph</li> <li>I can improve a photograph by retaking it</li> </ul> <p><b>LO: to decide how photographs can be improved</b></p> <ul style="list-style-type: none"> <li>I can explore the effect that light has on a photo</li> <li>I can experiment with different light sources</li> <li>I can explain why a picture may be unclear</li> </ul> <p><b>LO: to use tools to change an image</b></p> <ul style="list-style-type: none"> <li>I can recognise that images can be changed</li> <li>I can use a tool to achieve a desired effect</li> <li>I can explain my choices</li> </ul> <p><b>LO: to recognise that photos can be changed</b></p> <ul style="list-style-type: none"> <li>I can apply a range of photography skills to capture a photo</li> <li>I can recognise which photos have been changed</li> <li>I can identify which photos are real and which have been changed</li> </ul>		<p><b>LO: to explain that audio recordings can be edited</b></p> <ul style="list-style-type: none"> <li>I can inspect the soundwave view to know where to trim my recording</li> <li>I can discuss what sounds can be added to a podcast</li> <li>I can re-record my voice to improve my recording</li> </ul> <p><b>LO: to recognise the different parts of creating a podcast project</b></p> <ul style="list-style-type: none"> <li>I can explain how sounds can be combined to make a podcast more engaging</li> <li>I can save my project so the different parts remain editable</li> <li>I can plan appropriate content for a podcast</li> </ul> <p><b>LO: to combine audio to enhance my podcast project</b></p> <ul style="list-style-type: none"> <li>I can open my project to continue working on it</li> <li>I can arrange multiple sounds to create the effect I want</li> <li>I can explain the difference between saving a project and exporting an audio file</li> </ul> <p><b>LO: to evaluate the effective use of audio</b></p> <ul style="list-style-type: none"> <li>I can listen to an audio recording to identify its strengths</li> <li>I can suggest improvements to an audio recording</li> </ul> <p>I can choose appropriate edits to improve my podcast</p>

- I can record how many objects are in a group

**LO: to answer questions about groups of objects**

- I can decide how to group objects to answer a question
- I can compare groups of objects
- I can record and share what I have found

**Unit: Pictograms**

**LO: to recognise that we can count and compare objects using tally charts**

- I can record data in a tally chart
- I can represent a tally count as a total
- I can compare totals in a tally chart

**LO: to recognise that objects can be represented as pictures**

- I can enter data onto a computer
- I can use a computer to view data in a different format
- I can use pictograms to answer simple questions about objects

**LO: to create a pictogram**

- I can organise data in a tally chart
- I can use a tally chart to create a pictogram
- I can explain what the pictogram shows

**LO: to select objects by attribute and make comparisons**

- I can tally objects using a common attribute
- I can create a pictogram to arrange objects by an attribute
- I can answer 'more than'/'less than' and 'most/least' questions about an attribute

**LO: to recognise that people can be described by attributes**

- I can choose a suitable attribute to compare people

- I can independently create questions to use in a branching database
- I can create questions that will enable objects to be uniquely identified
- I can create a physical version of a branching database

**LO: to independently create an identification tool**

- I can create a branching database that reflects my plan
- I can work with a partner to test my identification tool
- I can suggest real-world uses for branching databases

**Unit: Data Logging**

**LO: to explain that data gathered over time can be used to answer questions**

- I can choose a data set to answer a given question
- I can suggest questions that can be answered using a given data set
- I can identify data that can be gathered over time

**LO: to use a digital device to collect data automatically**

- I can explain what data can be collected using sensors
- I can use data from a sensor to answer a given question
- I can identify that data from sensors can be recorded

**LO: to explain that a data logger collects 'data points' from sensors over time**

- I can recognise that a data logger collects data at given points
- I can identify the intervals used to collect data
- I can talk about the data that I have captured

**LO: to recognise how a computer can help us analyse data**

- I can view data at different levels of detail
- I can sort data to find information
- I can explain that there are different ways to view data

**LO: to identify the data needed to answer questions**

- I can propose a question that can be answered using logged data
- I can plan how to collect data using a data logger

**LO: to use a real-world database to answer questions**

- I can ask questions that will need more than one field to answer
- I can refine a search in a real-world context
- I can present my findings to a group

**Unit: Spreadsheets**

**LO: to create a data set in a spreadsheet**

- I can collect data
- I can suggest how to structure my data
- I can enter data into a spreadsheet

**LO: to build a data set in a spreadsheet**

- I can explain what an item of data is
- I can choose an appropriate format for a cell
- I can apply an appropriate format to a cell

**LO: to explain that formulas can be used to produce calculated data**

- I can explain which data types can be used in calculations
- I can construct a formula in a spreadsheet
- I can identify that changing inputs changes outputs

**LO: to apply formulas to data**

- I can calculate data using different operations
- I can create a formula which includes a range of cells
- I can apply a formula to multiple cells by duplicating it

**LO: to create a spreadsheet to plan an event**

- I can use a spreadsheet to answer questions
- I can explain why data should be organised
- I can apply a formula to calculate the data I need to answer questions

**LO: to choose suitable ways to present data**

- I can produce a chart
- I can use a chart to show the answer to questions
- I can suggest when to use a table or chart

- I can collect the data I need
- I can create a pictogram and draw conclusions from it

**LO: to explain that we can present information using a computer**

- I can use a computer program to present information in different ways
- I can share what I have found out using a computer
- I can give simple examples of why information should not be shared

- I can use a data logger to collect data

**LO: to use data from sensors to answer questions**

- I can interpret data that has been collected using a data logger
- I can draw conclusions from the data that I have collected
- I can explain the benefits of using a data logger
